

# CHOG TALES

チョグ物語

*The Daily Manga · Official Guide · Vol. 1*

Your Chog NFT stars in a manga that is written and drawn fresh every day. This guide explains how it works, why the NFT is the heart of it, and how $CHOG flows from readers to creators.

07 FAQ

CHAPTER 1

# What is ChogTales

WHOOSH!

ChogTales turns a Chog Genesis NFT into the main character of a serialized manga. Every day a new chapter is written and fully illustrated, with a cover, two pages of panels and a final decision, and it picks up exactly where the last one ended.

### YOU RAISE IT

Feed it, bathe it, train it, scold it, or start beef with another Chog. Every action quietly shifts a hidden personality and plants a story seed.

### IT BECOMES SOMEONE

Thief, sheriff, prophet, mayor, avenger. Who your Chog becomes is caused by what happened and what you chose. Nothing resets.

VEX
SO EVERY KEEPER GETS A DIFFERENT STORY?

NARRATOR
EVERY CHOG. SAME CITY, SAME RULES, NO TWO LIVES ALIKE.

CHAPTER 2

# Why the Chog is essential

KRAKK!

### IT'S THE FACE OF THE MANGA

The AI artist receives your Chog's NFT image as a reference for every panel, so the hero is your Chog: same cap, eyewear and outfit.

### ITS TRAITS ARE ITS NATURE

On-chain traits give each Chog a hidden sensitivity to every personality trait. Two Chogs fed the same food grow up differently.

### ITS TRAITS ARE ITS LEGEND

The writer turns traits into plot: BTC glasses that flash a hidden code, a cap the Baron's enforcers fear, a jersey number on a mystery crate.

### ONLY THE HOLDER WRITES IT

Sign-in is a free wallet signature, and every action checks ownerOf on Monad mainnet. Sell the Chog and its saga goes with it.

Chog Genesis · Monad mainnet (chain 143) · `0xc96d31f8626c6d03fae5dcd3d61e3fb9f4a73763`

CHAPTER 3

# A day in Chog City

TICK TOCK

## 01
### READ

Open today's chapter: a cover and two pages starring your Chog. It unlocks the moment every panel is drawn.

## 02
### DECIDE

Each chapter ends on a hard choice with 2–3 options and no right answer. You choose once; the next chapter is built on it.

## 03
### RAISE

3 meals from 11 foods, 3 care actions from 10 (bath, groom, early night, stay up late, train, study, play, talk, scold, medicine).

## 04
### RETURN

At midnight UTC the day rolls over. Tomorrow's chapter is usually already drawn, because it's produced the moment today's actions are in.

### NEGLECT IS A CHOICE TOO

Skip meals and hunger pushes your Chog darker. Skip baths and it gets smelly: trackers follow it, doors stay shut. Stay up too late and it makes mistakes in the big fight. Hygiene, Energy, Hunger and Mood are always on the dashboard.

### SEASONS

Stories run in 7-chapter seasons drawn from 19 arcs (heist, tournament, rebellion, time loop, kaiju...), each with a season mystery revealed piece by piece. Chapter 1 always opens mid-crisis, and every chapter ends on a cliffhanger with a “Next time...” teaser.

CHAPTER 4

# Beef: stories that cross

Once a day you can start beef with another keeper's Chog. Pick a rival, then a move. The rivalry becomes the main conflict of your next chapter, and it lands in *their* next chapter too.

### DUEL

Face to face. Winner takes the street.

### TRASH-TALK

Say it loud, in front of everyone.

### STEAL ITS FOOD

Its lunch, its snacks, its dignity.

### SPREAD A RUMOR

Whisper something. Let the city do the rest.

### PRANK IT

Glue, paint, a bucket over a door.

CHAPTER 5

# The Library & $CHOG

KA-CHING!

Any finished chapter can be published to the public Library, for free or for a price in $CHOG. Paid chapters show the cover and first page as a preview; the rest unlocks once the reader pays.

### STRAIGHT TO THE CREATOR

Unlocking sends $CHOG directly from the reader's wallet to the keeper who made the chapter. There's no escrow and no middleman contract. ChogTales takes nothing.

### VERIFIED ON-CHAIN

The server reads the transfer on Monad: right token, from the reader, to the author, at least the price. Each transaction unlocks once, for that wallet, forever.

### PUBLISHING

From My Saga, press Publish on any finished chapter and pick Free, 50, 100, 500 or a custom amount. You can take it down any time.

### DEMO KEEPERS

Demo mode can publish for free. Selling for $CHOG needs a connected wallet that holds the Chog.

$CHOG · Monad mainnet · 18 decimals · `0x350035555E10d9AfAF1566AaebfCeD5BA6C27777`

CHAPTER 6

# Under the hood

BZZT

### STORY

Two passes on Groq: `gpt-oss-120b` plans the plot, twist, cliffhanger and life update; `qwen3.8-27b` writes 8 panels of captions and dialogue, from a series bible and the Chog's entire life so far.

### ART

FLUX.2 [klein] on Cloudflare Workers AI, with the NFT image as the character reference, 8 artists drawing in parallel.

### CHAIN

viem reads ownerOf, tokenURI and totalSupply from Chog Genesis, finds a wallet's Chogs with one multicall, and verifies $CHOG payments.

### APP

Next.js 15 on Vercel, Redis for saves, wagmi + RainbowKit for wallets, a manga reader with PDF export (one chapter or a whole book).

CHAPTER 7

# FAQ

### Q DO I NEED A CHOG TO TRY IT?

No. Demo mode gives you three real Chog Genesis NFTs to play with. To make your own saga, you need a Chog in your wallet; the app links to the collection on OpenSea.

### Q HOW LONG DOES A CHAPTER TAKE?

Writing takes about 10 seconds; drawing takes a couple of minutes. After day 1, tomorrow's chapter is drawn ahead while you play, so it's usually ready when you return.

### Q WHAT HAPPENS IF I SELL MY CHOG?

The saga belongs to the Chog. The new holder continues it; you can no longer act for it.

### Q DOES SIGNING IN COST GAS?

No. It's a free message signature. The only on-chain transaction in ChogTales is when you choose to pay $CHOG for a Library chapter.

### Q CAN I KEEP MY CHAPTERS?

Yes. Download any chapter as a PDF, or pick several and get them as one book or separate files, readable on phone or desktop.

### Q IS THE STORY THE SAME FOR EVERYONE?

No. Your choices, your Chog's traits, what you fed it and who you beefed with all shape it. Even the same choices play out differently on different Chogs.
